hide? In the meantime, Hurray for Car 200! Also for J. Gantzer, our new Secretary-Treasurer from Dupage Co., who billed everyone for dues the first week in office. Did YOU pay?

Speaking of roads, M. Cryder, op-in-charge at SP Joliet, recently transferred from down state, was asked what he thought of Chicagoland. It's OK, he sez — but too many roads and inter-sections.

Dale Collier at Pontiac (who used to work at KIB65, Louisville) who insists on calling those flying windmills a "Helli-COOP-ter," was asked by the control station to report road conditions and weather, especially requesting — "Is it foggy?" Dale replied — "It's so hazy and dark, I can't tell whether it's foggy or not!" We do have problems.

—Ero

# FM MODULATION MONITOR MD-25A

Coverage — 30-40, 40-50, 72-76, 152-162 mc.  
Sensitivity — approximately 1 millivolt at antenna.  
Panel Meter — indicates modulation swing to 20 kc.  
Flasher — indicates peak modulation (carrier deviation) in excess of 15 kc.

### BROWNING FREQUENCY METERS

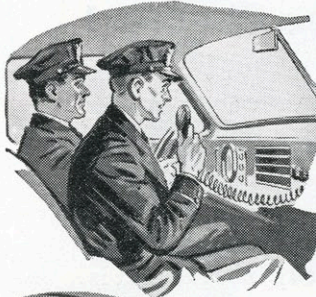

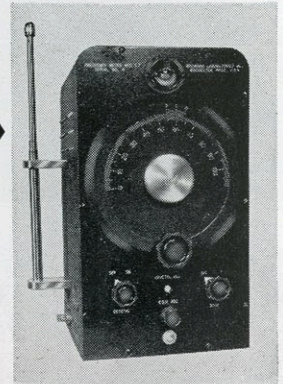

S-4 — 1 to 5 frequencies from 1.5 to 70 mc. FM or AM.  
S-7 — 1 to 2 frequencies in the 72-76 and 152-174 mc bands. FM or AM.  
Accurate to 25/10,000 of 1% of specified frequency. Easy to use, dependable, compact, and sturdy — ideal for police work. Calibration of all meters can be checked in the field.

Write for FREE bulletins fully describing these instruments.

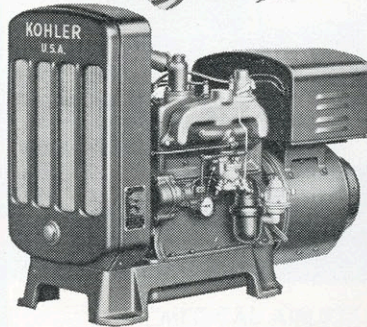

You must be sure!

Today the FM bands are more crowded than ever before, and the congestion is still increasing. The price of strict compliance with FCC regulations, on carrier swing and adjacent-channel interference, is constant and accurate vigilance. Why pay an extra price, by using less than the best monitoring equipment?

## KOHLER ELECTRIC PLANTS

*Stand-by protection  
for communications*

Model 5E61, 5 KW, 115/230 volt, AC.  
Automatic stand-by. Length 40",  
width 17", height 28".

When storms or accidents cut off central station power, stand-by Kohler plants, 750 watts to 15 KW, take over critical loads automatically. Prevent interruption of radio-telephone, alarm signals, when most needed. Maintain automatic heat, emergency lighting, at headquarters. Act *before* the emergency occurs. Mobile and portable models for sole supply on maintenance and repair trucks are available. Write for folder 22-E.

Kohler Co., Kohler, Wisconsin. Established 1873
