**ATTENTION  
MANUFACTURERS  
AND AGENCIES**

APCO Bulletin gives more of what you want, when presenting your products to the Public-service market.

Our members combine the judgment and purchasing power of age, with the keen enthusiasm of youth.

If you have a good product—don't waste time. Start building a better image of your endeavors thru these well-read pages. Rate card on request.

Because of our type membership we must reserve the right to accept or reject any and all advertisements.

A.P.C.O. Bulletin in our thirtieth year and still going more places—quicker. Join us—today.

**APRIL BULLETINS  
AVAILABLE**

Requests for the April, 1964 issue of our APCO magazine, containing list of "Non-conforming Transmitters" and the E.I.A. Card Study, has been lively. If you, or a friend need extra copies of this list, send one dollar to cover handling and mailing to Mailing Dept., APCO Bulletin, 38506 Lakeshore Dr., Harrison Twp., Mt. Clemens, Mich. 48043.

**DEADLINE  
FOR  
RESOLUTIONS**

All resolutions proposing amendment to the APCO Constitution and By-laws should be submitted no later than April 1, 1964 to the Chairman of the Resolutor. Committee, Anthony Gain, 321 East Jackson St., Los Angeles 12, California. They should be in duplicate and one copy will then be forwarded to the Constitution and By-laws Committee. Such Resolutions must be published in the APCO Bulletin at least 60 days prior to the start of the National Conference.

The June, 1964 issue is the latest one in which the Resolutions may appear.

The deadline for the June issue is May 1st, 1964.

**The LAMPKIN 205-A FM  
MODULATION METER** FOR SPLIT-CHANNEL AND SELECTIVE CALLING SYSTEMS

AVAILABLE IN TWO MODELS — DUAL-SCALE AND QUAD-SCALE

The Dual-scale model has full-scale ranges of 12.5 and 25.0 PEAK KC modulation. All models indicate instantaneous peaks of modulation — with voice, tone, clipped, or any other type of modulation. The 5-KC modulation limit for split channels registers effectively on the 12.5-KC range. Price \$270.00 net.

The Quad-scale 205-A has full-scale ranges of 1.25, 2.50, 12.5, and 25.0 PEAK KC modulation. In addition to the Dual-scale features, this model is ideal for selective-calling systems employing tones as low as 50 cycles and modulation as low as 0.75 KC. Price \$310.00 net.

Both models feature direct-reading of modulation in PEAK KC — no charts or tables. Tuning is continuous from 25 MC to 500 MC—no switching or coil changing. Modulation accuracy better than 10% of full scale. Carries easily, weighs only 10 pounds.
