Mr. E. C. Denstaedt
Detroit Police Dept
Detroit, Michigan.

Dear Sir:

At a recent meeting of the Illinois Chapter of the APCO I was appointed Chairman of our Operating Procedure Committee. Since that committee has been a dead issue for a long time, there seems to be a job to do, especially in streamlining procedure that has become sloppy for the lack of attention.

Last year you put out a good Communications Directory which helped a lot in routing our traffic. Is another issue being made up for this year? If so, I would like to have a batch of them to distribute to neighboring stations and interested telephone switch boards that feed InterZone traffic to WQPC. This would eliminate a great number of inquiries about routing messages and promote a better understanding of the conditions.

A plan is being worked out to cut superfluous words and unnecessary time on the air. I would like to have information from you about the Directory in time to include it in my report to the meeting next Thursday February 5. Anything you send will be greatly appreciated

Sincerely yours,

Ero E. Erickson - Supervisor WQPC
