1972 -Teletype Committee for National APCO - 1973

Objectives:

Continue researching the feasibility of obtaining the Federal Assistance necessary in order to meet the financial requirements necessary to make improvements to the LETS System. (Results of which will be submitted to the NLETS Directors.)

Arrange for the minutes of the various circuit reports to be printed in the APCO Bulletin along with circuit loading reports as they pertain to peak and minimum traffic volumes.

Review the Nations LETS Operating Manual and recommend required changes to the NLETS Directors.
