September 16, 1936.

Mr. Otis J. Stanley, Vice President
Associated Police Communication Officers
City Police Headquarters
Davenport, Iowa

Dear Mr. Stanley:

I wish to acknowledge your form letter of September 12, 1936 inviting me to attend the annual APCO Convention at Davenport, October 5th, 6th, and 7th. I am making all plans to be in Davenport during the full three days.

I am wondering if there would be any space available in the convention hall or hotel where the convention is to be held, for a display of a few pictures showing the new Illinois State Police Radio System. If such space is available, I would be glad to bring along 8 x 10 photographs mounted on a large cardboard background, showing pictures of our various radio stations here in the State of Illinois. May I please have your reaction to this suggestion.

I am not quite certain whether police officers are invited to the convention or not. If so, I should like to ask that you send invitations to the following: Mr. Ernst Lieberman, Chief Highway Engineer, 419 Centennial Building, Springfield, Illinois; Mr. Walter Williams, Superintendent, Illinois State Highway Maintenance Police, 416 Centennial Building, Springfield, Illinois.

If convenient to you, I should like to ask that you send me ten of the invitation letters, without names on them. I wish to use the poster, or the reproduction of the poster, on the back of these letters. I plan to send one to each of our new radio stations.

Thanking you for your invitation, and looking forward to a fine time in Davenport,

Yours very truly,

Glenn E. West, Engineer
Radio Division, Bureau of Police

CC: capt. Batts
