Capt. Robt. L. Batts,
Supervisor Police Radio WMDZ,
Indianapolis, Ind.,

Dear Captain Batts:

Since the last APCO Convention in Indianapolis fellow members of the APCO in this vicinity are wondering what has become of the organization. Too, what has become of the inter-city CW Communication Plan.

To the present writing no communications or bulletins of any sort have been received from the APCO headquarters or any of its officials. Fellow members in this area are surely in the dark as to what is going on.

St Louis has filed their application for permit for telegraph transmitter, Kansas City Missouri likewise has filed their application. File numbers have been received by both from the Communications Commission. Do you have any further information?

Let us hear from you if you have any information regarding inter-city plan, also if the APCO intends to send out the usual bulletins in the future. Wishing you a very Happy New Year, we are,

Yours Very Truly,

F. J. Stapp
