

THURSDAY AFTERNOON

Meeting was called to order at 2:30 P.M. Lt. Albert Perrott, of the Indianapolis, Police Department addressed the assembly on "The Modern Fingerprint Identification".

Meeting adjourned at 3:20 P.M.

THURSDAY EVENING

The concluding event of the Convention was the banquet, which in view of the seriousness of preceeding sessions, was dedicated to fun-making. A good time was had by all."

PRESIDENT BATTS:- Next on our program this morning, is the report of the Committee to investigate space in magazines for disseminating APCO information to members. Mr. E.E.H. Fisher, is Chairman of that Committee. Is your Committee ready to report Mr. Fisher?

MR. FISHER:- We have nothing to report Mr. President.

PRESIDENT BATTS:- Concerning the program. In as much as this was cut down to a three day convention, we have been forced to do several things that we didn't like to do. One of the things is, that we have been forced to cut the talks by representatives of the firms exhibiting here down to ten minutes. Another thing I would like to mention at this time is, that we have a very full program, particularly today beginning this afternoon and we would like to begin these sessions as near on time as possible which we did not do this morning. Keeping that in mind, we have allowed plenty of time for work and plenty of time to play in our program.

PRESIDENT BATTS:- I have several members who should be here by this time that I would like to introduce and one of those gentlemen in particular is Mr. E.K. Jett, Assistant Chief Engineer, Federal Communications Commission. I am sure that we all appreciate how much he has cooperated with us in the past two years and how much he has done for us in an advisory capacity, etc.
